camille ramon.

UX designer & researcher

- **Open to a role · permanent or fixed-term**

PROFILE

Junior UX designer, I design interfaces based on users' real needs rather than assumptions. Trained at IPAG Business School (MSc Digital Project Manager – UX Design) and experienced in the field at Alten Sud Ouest (audits, benchmarks, user testing, wireframes), I combine methodological rigour with a practical mindset. My background in psychology gives me an extra perspective on user behaviour. I am now looking for a UX Designer / UX Researcher role to turn this rigour into product impact.

EXPERIENCE

UX Designer / Digital Project Assistant — 2023 – 2025

Alten Sud Ouest · Work-study

- Carried out a UX audit and competitive benchmark for the redesign of the works council website, based on a user survey with over 100 responses; prioritised UX recommendations handed over to the project team.
- Led a feasibility study for an interactive legal notice display: scoped needs with several departments, structured the information and produced low-fidelity wireframes.
- Designed and tested a mobile app as a school project: user research and one-to-one interviews on 3 journeys, prototype iterated from the feedback gathered.

User Entity Administrator (UEA) — 2022 – 2023

Alten Sud Ouest

- Managed Airbus accounts and access rights (UMS, Onsite2, ServiceNow, ReAct) for a portfolio of around 400 consultants.
- Ran the six-monthly Airbus badge renewal campaign, a blocking requirement for teams to stay on site, coordinating project by project.
- Contributed to rolling out the role internationally in the UK, working with counterparts in Romania, Spain and India.

Documentalist — 2021 – 2022

Mas & Associés

- Regular documentary and legal monitoring, tracking regulatory changes.
- Digitised and archived several years of historical files, alongside handling mail and coordinating IT providers.

Socio-cultural Project Coordinator — 2018 – 2019

SPIP · Civic service

- Organised and ran 4 to 5 weekly activities with a regular network of external contributors, including a belly dance class.
- Set up a discussion session bringing together around thirty participants to draft applications to the European Commission.
- Single point of contact for contributors; wrote meeting minutes.
